

A Message From NARFE President William Shackelford

Hi, NARFE members. We've finally reached a long-anticipated phase in updating our Association Management Software, or AMS, our membership database. This new enhancement will give us greater customization options and improve your overall experience.

The upgrade starts next Monday, October 7, and likely lasts through Monday, Oct. 14. During this time, **you will not have access** to FEDhub, members-only content on narfe.org and account information at members.narfe.org, such as webinar registration and membership renewal. You may also not receive our customary Daily News Clips and weekly Newslines during this timeframe, due to integration with the AMS.

Members can still visit narfe.org, including our Legislative Action Center. Communications staff will be sharing all updates to NARFE's social media channels: [Facebook](#), [Twitter](#) and [LinkedIn](#).

[Click here](#) for a question-and-answer breakdown of what the AMS upgrade means for NARFE officers and members. Thanks for your cooperation during this time!

Feel free to reach out to communications@narfe.org if you have any additional questions or concerns.

Also, keep checking our [Open Season Resources page for more updates this week](#), and continue to take action and read up on critical advocacy priorities below!
